Councilman Blankenship stated that he read that the City of Newport is utilizing I-Pads for officials for various meetings out of the office and thinks they would be a good approach for the city to use for department heads when away from the business. He feels we should consider it.

Councilman Blankenship expressed that the city has been very fortunate that we have been able to pay off the City Building, relocate the Maintenance Department and develop the south station for the Fire Department. These are good things for the city but he would like to see the city do something that the residents can take advantage of such as adding to the playground areas similar to Ft. Thomas Tower Park that we could put down at Frederick's Landing. This may mean changing the fee to Frederick's Landing but would like council to take this into consideration.

Councilman Dinn – Echoed council's comments and gratitude.

Councilman Herald – No comment.
